

How do I Change the Volume?

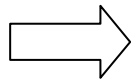

1. Switch on the Beyonwiz PVR and wait for a picture to show on the screen. If a picture doesn't appear, your PVR may need to scan your channels first – See "How do I do a Channel Scan?"
2. The remote has an up/down toggle button labelled **VOL** located on the top right hand side. Press the **+** or **-** to increase and decrease the volume.

The volume will be displayed on the Front Display Window and will also appear on the screen.

3. There is a **MUTE** button located to the right of the **VOL** button on the remote. Pressing it will toggle the sound output on and off.

MUTE will be displayed on the Front Display Window and will also appear on the screen
