

# How Do I Enable Or Disable Daylight Savings Mode?

**Setting up the correct daylight savings time on your Beyonwiz is really easy. This guide shows you how to do this.**

**Before you begin:** Make sure your Beyonwiz and TV are turned on and that it is set to Live TV mode (not a recording).

**Step 1:** Press the "SETUP" button on your Beyonwiz remote control and use the ◀▶ buttons to highlight the "Config" (Beyonwiz icon) option on the top bar.

**Step 2:** Use the ▲▼ buttons on the remote control to highlight "Time" in the side menu, then press "OK" to access the time settings to the right.

**Note:** The time mode must be set to "AUTO" and the correct "Region" (the state where you live) be selected to proceed. No "Daylight Saving" option is listed when set to "MANUAL" time setting.

**Step 3:** Use the ▲▼ buttons on the remote control to highlight "Daylight Saving" then press "OK" to access the daylight saving options.

**Step 4:** Use the ▲▼ buttons on the remote control to highlight required setting. Enable (Daylight Savings mode on) or Disable (Daylight Savings mode off), then press "OK" to confirm your selection.

The "Daylight Saving Option" screen with "Enable" (Daylight Saving mode ON) selected (Step 3).
