

# How to upgrade Beyonwiz firmware via a USB stick

Updates are released regularly to improve functionality or resolve issues. The procedure is very simple to perform.

1. Go to [www.beyonwiz.com.au/downloads.php](http://www.beyonwiz.com.au/downloads.php) and download the latest firmware for your Beyonwiz model.
  2. Copy the Beyonwiz .wrp firmware file onto your USB memory stick. Do NOT try to open or run the firmware file on a computer – it is not a computer program.
  3. Insert the USB memory stick (flash drive) into a USB port on your Beyonwiz. All models have a USB port on the rear panel. Some also have a USB port behind a door on the front panel (refer to the manual).
  4. IMPORTANT: Turn the Beyonwiz off and then on.
  5. Turn on your TV and select the correct A/V Input.
  6. On the Beyonwiz remote control, press the **SETUP** button and then use the ◀▶ arrow buttons to navigate to the **System** option on the top menu.
  7. Use the ▲▼ arrow buttons to select **Firmware** on the side menu and press **OK**.
  8. Using either ▲▼ button select **Firmware Upgrade** and press **OK**.
  9. Using either ▲▼ button select **USB** and press **OK**.
  10. Select **Device#** and press **OK**.
  11. Using either ▲▼ arrow button select the name of the USB stick (which may be **Unit0\_P1**) and then press the **OK** button.
  12. Use the ▲▼ arrow and **OK** buttons to navigate to the firmware file that you saved onto the USB stick and then press **OK** to select it.
  13. Use either ◀▶ arrow button to select **Yes** and then press **OK** to accept the **Firmware Upgrade** warning. Note: Your recordings will NOT be deleted.
- The firmware upgrade will begin and you will see a progress bar for the **Erasing** and **Writing** processes. When complete you will see a notice saying that the **Firmware Successfully Upgraded**.
14. Press **OK** at the **Firmware Successfully Upgraded** notice and the Beyonwiz will switch off to standby.
  15. Switch the Beyonwiz on again and remove the USB stick.
- Congratulations, you have upgraded your Beyonwiz
